

MT. KARE GOLD AND SILVER NEWS UPDATE – 12 - 11 – 2019

Mt. Kare Project Landowners Lobbying And Supporting Summit Development Limited (SDL) And Indochine Mining Limited.

I am **Shepherd Tara** and I would like to take this time once again to represent the customary landowners of Mt. Kare Gold and Silver Project in the Enga Province and express their views and concerns in the media by showing their full support for summit Development Limited and Indochine Mining Limited on the second hearing of the Supreme Court scheduled at Wagani Court Haus in Port Moresby.

Firstly, we the customary landowners of Mt. Kare Project want to take this opportunity to congratulate the newly elected Prime Minister of Papua New Guinea Right Honorable James Marabe. We acknowledge and salute him as our God's appointed leader and Prime Minister of this nation.

We would like to kindly request if the new government and the MRA to issue back the **License Number EL 1093** back to Summit Development Limited before the Court date is set because the previous government had made a mistake by transferring the Exploration **License Number EL 1093** to a Junior Exploration Company which is Global Mining Limited.

It had already taken 33 years so far now for exploration companies to carry out exploration activities and our natural environment have been destroyed and too many of our family members have lost their lives because of the delay caused by the MRA and State when every time it transfers our license to a new or Junior exploration company.

Summit had proved to us and they are saying that they have enough money (Billions of Kina) to make Mt. Kare into a Mining Stage. We understand that the Supreme Court of PNG's decision on Summit's appeal is still pending and Summit's arguments in the appeal hearing were very good when the Chairman of the three bench Judges' paid careful attention to the **Weaknesses** in the MRA's case and we know that Summit has grounds to restore its license for Mt. Kare on Judicial basis.

Lastly, we would like to advise the MRA and the State that we the customary landowners of Mt. Kare gold and silver project have cooperated and organized ourselves to support Summit and Indochine Mining Limited so find below are our clans and signatures of landowners showing their full support for SDL and Indochine Mining in the Supreme Court which is not too far now.

Thank you.

SHEPHERD TARA

Chairman of Open Kare Gold and Silver
Mining Investment Limited.
